Accommodation Guide

Accommodation

Overlooking the pedestrian-only area of the village core are nine hotels and apartment style buildings. With a slight grade to the snow-covered thoroughfare, you can conveniently ski from your front door to the lifts, and stop for your morning coffee along the way! Well-appointed chalets can sleep up to 20+, while contemporary and traditional mountain-style condos sleep 2 or more. No matter your location, you're a short walk from restaurants and shops.

An aerial night photograph of a mountain resort. The scene is covered in snow, with numerous evergreen trees heavily laden with snow. In the center, a large, multi-story resort building is brightly lit from within, with its lights glowing through the windows and balconies. To the right, another building with a prominent clock tower is also illuminated. The surrounding slopes are dotted with smaller buildings and more snow-covered trees. The overall atmosphere is serene and festive, typical of a winter resort at night.
