# Accommodation

Overlooking the pedestrian-only area of the village core are nine hotels and apartment style buildings. With a slight grade to the snow-covered thoroughfare, you can conveniently ski from your front door to the lifts, and stop for your morning coffee along the way! Well-appointed chalets can sleep up to 20+, while contemporary and traditional mountain-style condos sleep 2 or more. No matter your location, you're a short walk from restaurants and shops.

An aerial night photograph of a snowy mountain town, likely Sun Peaks. The town is built on a hillside, with numerous houses and buildings covered in snow and illuminated from within. A ski lift is visible on the left, and a large, brightly lit Christmas tree stands in the center of the town square. The surrounding forest is also covered in snow.
