

### Sun Peaks Forecast (Inside ski area boundary)

*Issued at 7 am*

*Morning*

*Afternoon*

*Evening*

A strong ridge of high pressure will lie over the region Wednesday and Thursday. Overnight, strong cooling will allow low cloud and fog to form and then afternoon sunny periods will develop each day. Temperatures will be cool overnight. On Thursday, milder air will stream inland around the ridge of high pressure and warming will develop at the highest elevations. Wind will be light.

### Current weather and snow conditions

Watch out for early season conditions and new snow covering unmarked hazards, but some good skiing to be found.

4cm new snow over 48 hours

Clear

Early season conditions

### Avalanche Canada Forecast

*North Columbias*

*Issued yesterday at 4 pm*

More information at [www.avalanche.ca](http://www.avalanche.ca) or Avalanche Canada mobile app

### CAUTION

The avalanche hazard information is a generalized forecast from Avalanche Canada for this region provided for your information only. Local conditions can and do vary widely and can be dangerous at any time even if the forecast does not report this. Know your route, be properly equipped, notify someone of your travel plans, never ski alone. Sun Peaks Resort LLP does not endorse or encourage going beyond the ski area boundary at any time. Persons going beyond the ski area boundary do so at their own risk and assume all liability and responsibility for their own safety.
