

Sun Peaks Forecast (Inside ski area boundary)

Issued at 7 am

Morning

Afternoon

Evening

A relatively cold airmass still persists over Sun Peaks. A Pacific weather system will give some snow to the area this morning easing to just a few flurries by the afternoon. An upper southwest flow pattern for tonight and Sunday will give variable cloud and sunny periods for Sunday. Only isolated flurries expected. Gusty winds at times. Temperatures will be milder for Sunday.

Current weather and snow conditions

Please respect the closures. They are there for your safety. Watch for variable conditions and changes throughout the day. Enjoy the new wind loaded pockets of new snow.

6cm of new snow over last 24hrs

CAUTION

The avalanche hazard information is a generalized forecast from Avalanche Canada for this region provided for your information only. Local conditions can and do vary widely and can be dangerous at any time even if the forecast does not report this. Know your route, be properly equipped, notify someone of your travel plans, never ski alone. Sun Peaks Resort LLP does not endorse or encourage going beyond the ski area boundary at any time. Persons going beyond the ski area boundary do so at their own risk and assume all liability and responsibility for their own safety.
