

Directions to the Whitecroft Waterfall

- The waterfall is located about 10 minutes (7kms) away from the resort area. When driving down Sun Peaks Road, It is just before the village of Whitecroft.
- Just past the cattle guard, you will see a small field on the left where you can turn into and either park and walk over or turn around and proceed to park on the right hand side of the street.
- You will see a sign for McSporties on your right hand side. Pull over as far as you can and park wherever there is a safe area. In the winter, you may need to park just outside of Whitecroft
- About 25 or so feet further up the hill, you will see a pathway going down a forest service road on the right with two big cement blocks closed with a chain – that's the route to the Waterfall.
- Continue on around 500 yards or so up, past a small cement damn, past a large block rock outcropping which will be on your left, and past a small little waterfall in the creek to your right. As you carry-on along the creek, you will start to hear the larger waterfall up ahead.
- Continue on until you come to the opening, where you can stop to admire the falls, take pictures, or even enjoy a picnic.
- **But be careful** and talk loudly along the way – you are in the wilderness and you want to ensure any possible wildlife hears you coming.
